

before it ever goes into affect it is probably going to be completely rewritten. That would be my recommendation.

SENATOR BARNETT: If you want to do that today, we could do it today and eliminate.....but I would like to add one thing before you do that John and that is, Mr. President, the rewrite that might be a question before some of the body has come about since the code has been written there has been Supreme Court decision come out on this section of law and that is why the change is needed. Now also you will have this from now until doomsday on interpretation of any code of the code that we have on the statutes today or the criminal code. There will be people in here attempting to change it all of the time. I would say that if there is no objection, if there is no objection in this body that you can look through Article 11 over night and we will consider that Article 11 will be passed with the code, with the understanding and I am stating it here in the record, that it will be rewritten during the interim and brought up to date with the Supreme Court decisions with the help of the Attorney General which I think might be of interest to some of you who think that some people are not interested in this revision, he is interested in it, as many other people are. If there is no objection I would say that we have covered the original 13 sections of this LB38 and with that we would start with general amendments to LB38 whenever Vince or the Speaker says that they are ready. If I hear no objections that is the way that it will stand.

PRESIDENT: There is nothing before us Senator Barnett.

SENATOR BARNETT: Okay, that will be it.

PRESIDENT: We go to Select File. LB483, Senator Cullan.

CLERK: Mr. President 483 we brought up yesterday and laid the bill over.

PRESIDENT: Are there E & R amendments?

CLERK: Yes.

PRESIDENT: Do you want to move them?

SENATOR CULLAN: Let me check....let me leave that on the bottom of Select File and I'll check on it if that is alright.

PRESIDENT: Okay, we go to 398 then.

CLERK: Alright 398 there are no E & R amendments. There is an amendment offered by Senator Newell.

PRESIDENT: 398 Senator. It is the second one found on Select File.

CLERK: This is your amendment found on page 1262. Read amendment.

PRESIDENT: Senator Newell.
